

```
numeric_limits< T::  
    Scalar >
```

The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class, containing the text 'numeric\_limits< T:: Scalar >'. Below it is a darker gray box representing the derived class, containing the text 'std::numeric\_limits < Eigen::AutoDiffScalar < T & > >'. A blue arrow points from the top of the derived class box to the bottom of the base class box, indicating that the derived class inherits from the base class.

```
std::numeric_limits  
< Eigen::AutoDiffScalar  
    < T & > >
```
