The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `eigen-3.4.0/eigen-3.4.0/blas/level2_real_impl.h`. Below it are two white boxes representing source files. The left box is `eigen-3.4.0/eigen-3.4.0/blas/double.cpp` and the right box is `eigen-3.4.0/eigen-3.4.0/blas/single.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.
