

Eigen::internal::default
_packet_traits

The diagram illustrates the relationship between two Eigen packet traits. At the bottom is a grey box representing 'Eigen::internal::packet_traits<bfloat16>', which is divided into three horizontal sections. Above it is a white box representing 'Eigen::internal::default_packet_traits', also divided into three horizontal sections. Four blue arrows point upwards from the top of the grey box to the bottom of the white box, indicating that the white box inherits from or is derived from the grey box.
