

Eigen::internal::default
_packet_traits

The diagram illustrates the inheritance of packet traits in Eigen. It consists of two rectangular boxes. The top box, representing `Eigen::internal::default_packet_traits`, is white with a black border and is divided into three horizontal sections. The bottom section is empty. The bottom box, representing `Eigen::internal::packet_traits<int32_t>`, is gray with a black border and is also divided into three horizontal sections. The top section contains the text `Eigen::internal::packet_traits<int32_t>`, while the two bottom sections are empty. Two blue arrows point upwards from the top edge of the gray box to the bottom edge of the white box, indicating that the gray box inherits from the white box.
