

Eigen::internal::default
_packet_traits

```
graph BT; A["Eigen::internal::packet_traits<int8_t>"] --> B["Eigen::internal::default_packet_traits"]
```

The diagram illustrates an inheritance relationship between two C++ traits structures. At the bottom is a gray-shaded box representing `Eigen::internal::packet_traits<int8_t>`, which is divided into three horizontal sections. A blue arrow points upwards from the top section of this box to the bottom section of a white box above it. The white box represents `Eigen::internal::default_packet_traits`, also divided into three horizontal sections. The top section of the white box contains the text `Eigen::internal::default_packet_traits`.
