

```
Eigen::internal::traits  
< Transpose< MatrixType  
::PlainObject >::PlainObject >
```

The diagram illustrates an inheritance relationship between two Eigen traits. A light gray box at the top represents the base trait, `Eigen::internal::traits<Transpose<MatrixType>::PlainObject>`. A darker gray box at the bottom represents the derived trait, `Eigen::internal::traits<Inverse<CompleteOrthogonalDecomposition<MatrixType>>>`. A blue arrow points from the bottom box to the top box, indicating that the bottom trait inherits from the top trait.

```
Eigen::internal::traits  
< Inverse< CompleteOrthogonal  
Decomposition< MatrixType > > >
```
