

```
Eigen::internal::traits  
< SparseMatrix< _Scalar,  
_Flags, _StorageIndex > >
```

The diagram illustrates an inheritance relationship between two Eigen traits classes. A light gray box at the top represents the base class, `Eigen::internal::traits< SparseMatrix< _Scalar, _Flags, _StorageIndex > >`. A dark gray box at the bottom represents the derived class, `Eigen::internal::traits< MappedSparseMatrix< _Scalar, _Flags, _StorageIndex > >`. A blue arrow points from the top of the dark gray box to the bottom of the light gray box, indicating that the derived class inherits from the base class.

```
Eigen::internal::traits  
< MappedSparseMatrix<  
_Scalar, _Flags, _StorageIndex > >
```
