

```
Eigen::internal::traits  
< SparseMatrix< MatScalar,  
  MatOptions, MatIndex > >
```

The diagram illustrates an inheritance relationship between two Eigen traits classes. A light gray box at the top represents the base class, `Eigen::internal::traits< SparseMatrix< MatScalar, MatOptions, MatIndex > >`. A dark gray box at the bottom represents the derived class, `Eigen::internal::traits< Ref< SparseMatrix< MatScalar, MatOptions, MatIndex >, _Options, _StrideType > >`. A blue arrow with a triangular head points from the bottom box up to the top box, indicating that the bottom class inherits from the top class.

```
Eigen::internal::traits  
< Ref< SparseMatrix< MatScalar,  
  MatOptions, MatIndex >, _Options,  
  _StrideType > >
```
