

```
Eigen::internal::triangular  
_matrix_vector_product<  
  Index, Mode, LhsScalar,  
  ConjLhs, RhsScalar, ConjRhs,  
  StorageOrder, BuiltIn >
```

The diagram illustrates an inheritance relationship between two Eigen library functions. At the bottom is a grey-shaded box representing the base class, `Eigen::internal::triangular_matrix_vector_product_trmv`, which has two empty rows below its signature. Above it is a white box representing the derived class, `Eigen::internal::triangular_matrix_vector_product`, which has two empty rows below its signature. A blue arrow points from the top of the grey box to the bottom of the white box, indicating that the white box inherits from the grey box.

```
Eigen::internal::triangular  
_matrix_vector_product_trmv  
< Index, Mode, LhsScalar, ConjLhs,  
  RhsScalar, ConjRhs, StorageOrder >
```
