

eigen-3.4.0/eigen-3.4.0
/bench/btl/generic_bench
/utils/xy_file.hh

```
graph TD; A["eigen-3.4.0/eigen-3.4.0  
/bench/btl/generic_bench  
/utils/xy_file.hh"] --> B["fstream"]; A --> C["iostream"]; A --> D["string"]; A --> E["vector"];
```

The diagram illustrates a dependency or relationship. A central box at the top contains the file path 'eigen-3.4.0/eigen-3.4.0 /bench/btl/generic_bench /utils/xy_file.hh'. Four blue arrows originate from the bottom of this box and point to four separate boxes below it, labeled 'fstream', 'iostream', 'string', and 'vector'.
